

# MONTGOMERY WARD

A woman with short brown hair, wearing a pink and white vertically striped, off-the-shoulder dress with puffed sleeves and a full skirt, stands outdoors. She holds a large, light pink parasol with a white lace trim over her left shoulder. She is also wearing white gloves. The background is a soft-focus view of green foliage against a clear blue sky.

# Montgomery Ward & Company Chicago

Dear Customer:

Our hearty thanks to you for the business you have given us in the past.

We are doing many things to merit your further patronage.

This catalog is printed on brand new presses in which our printers invested over \$9,000,000. One result is more accurate color reproduction to help you in making your selections. Also, this new size Ward catalog is easier to hold and fits into your bookcase or telephone table for handy reference.

This catalog brings you a wider, better assortment, and its values are especially good. Many new and interesting items are offered. Some of them are mentioned on the following two pages.

Because millions of our customers like to buy on credit, we have five different payment plans. We think you will find one that suits your exact needs. They are described briefly on Page 4 of this insert.

You can order from this catalog at your convenience. You can order from it with confidence. The policy originated by Mr. A. Montgomery Ward in 1875 still prevails—Satisfaction Guaranteed or Your Money Back.

Sincerely yours,

# WARDS GUARANTEE

## Satisfaction Guaranteed or Your Money Back

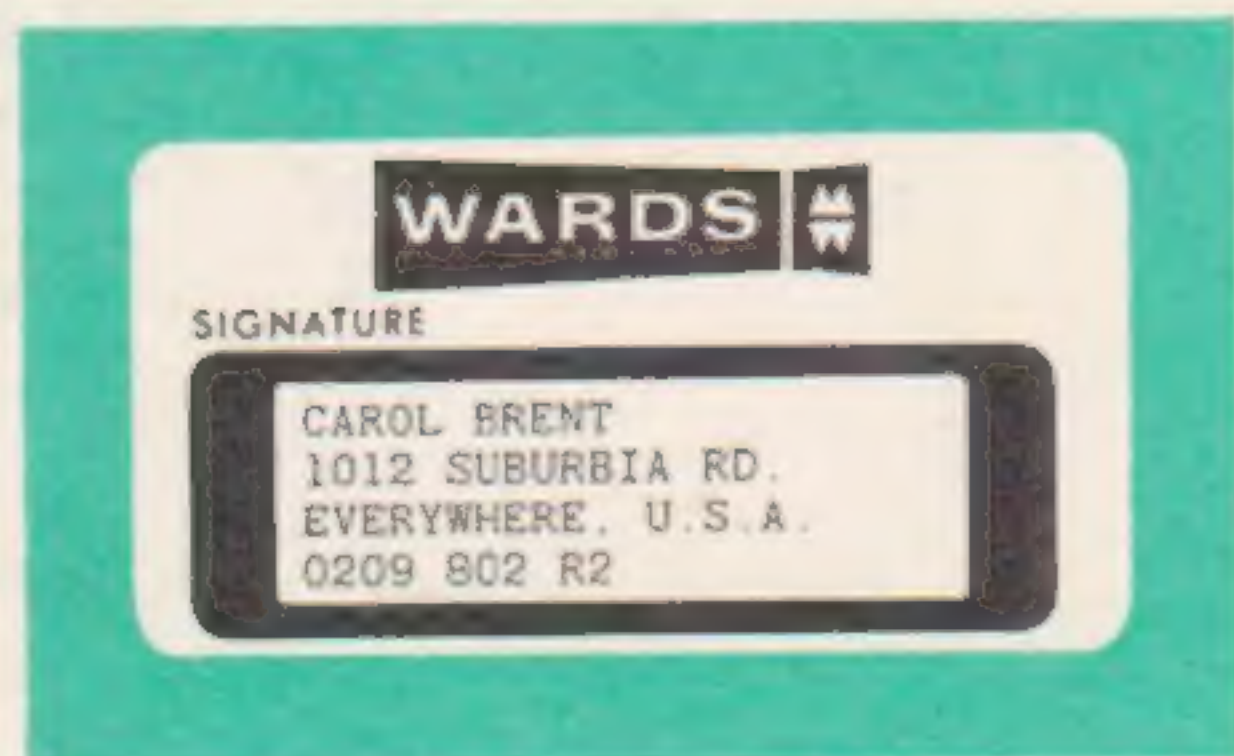

We guarantee the quality of every article as described, and guarantee that it will give you the service you have a right to expect.

If, for any reason, you are not completely satisfied with any article purchased from us, you may return it at our expense. We will exchange it for what you want, or refund what you paid, including any transportation charges paid by you.

MONTGOMERY WARD & CO.

# WARDS CREDIT

## Wards Offer You a Choice of 5 Plans:

### 1 With a Revolving Charge, You Just Say "Charge It"

Really two Plans in one! You can handle your Ward Revolving Charge like any 30-day charge account... pay in full within 30 days, with no service charge. Or, if you prefer, you may extend your payment over many months. In either case, there is no down payment. A Revolving Charge makes it easy to shop; just mention your account number. Additional purchases may be made, with no down payment. No postage to figure, no C.O.D. charges to pay; all are included in your account. Full details, and application form, are on page 1281.

### 2 On Major Purchases, \$5 or \$10 Down, 2 Years to Pay

This convenient Credit Plan applies to Major Appliances, Furniture, Home Furnishings, Cameras, and many other types of merchandise. (For complete list, and Table of Terms, see page 791.) This Plan also applies on any merchandise purchase over \$300. \$5 down payment on amounts from \$50.01 to \$200... \$10 down payment on amounts over \$200. You have as long as 2 years to pay, depending on the size of your purchase.

### 3 3 Years to Pay, on Home Improvement Projects

Extra-easy terms, to make home-improvement and home modernizing purchases extra easy to pay for. \$100 minimum. No down payment; up to 3 years to pay, depending on the amount of your purchase. Appliances that are a component part of the project may be included. For full details and table of terms, see page 960.

### 4 For Farm Equipment, Pay- ment Dates to Fit Income

These highly flexible terms are arranged to meet the special credit problems of farmers, fruit growers and ranchers, whose principal income is received on a harvest or seasonal basis. At Wards, these men may buy the equipment they need when they need it, and pay for it conveniently at harvest time or market time. This Plan gives a choice of 2, 3 or 4 payments, over a period as long as 18 months. (For complete details and terms, see Wards Farm Book.)

### 5 For General Merchandise, 10% Down, 18 Mo. to Pay

A convenient Plan, particularly adapted to smaller purchases. Monthly payments as low as \$3, with a minimum initial order of only \$20. (No down payment on add-ons.) As long as 18 months to pay, depending on the size of your purchase. For terms and complete details, see page 1183.

# Wards Guarantees Fashions That Fit

Take the body measurements below... they will help you find your size

Be sure of your correct size? One of the figure types on this page is yours! With the help of your tape measure and these instructions, find your size—it's as simple as that! Remember, these are body, not garment measurements. It's these measurements, not the age or the price of the clothes, that determine your size.

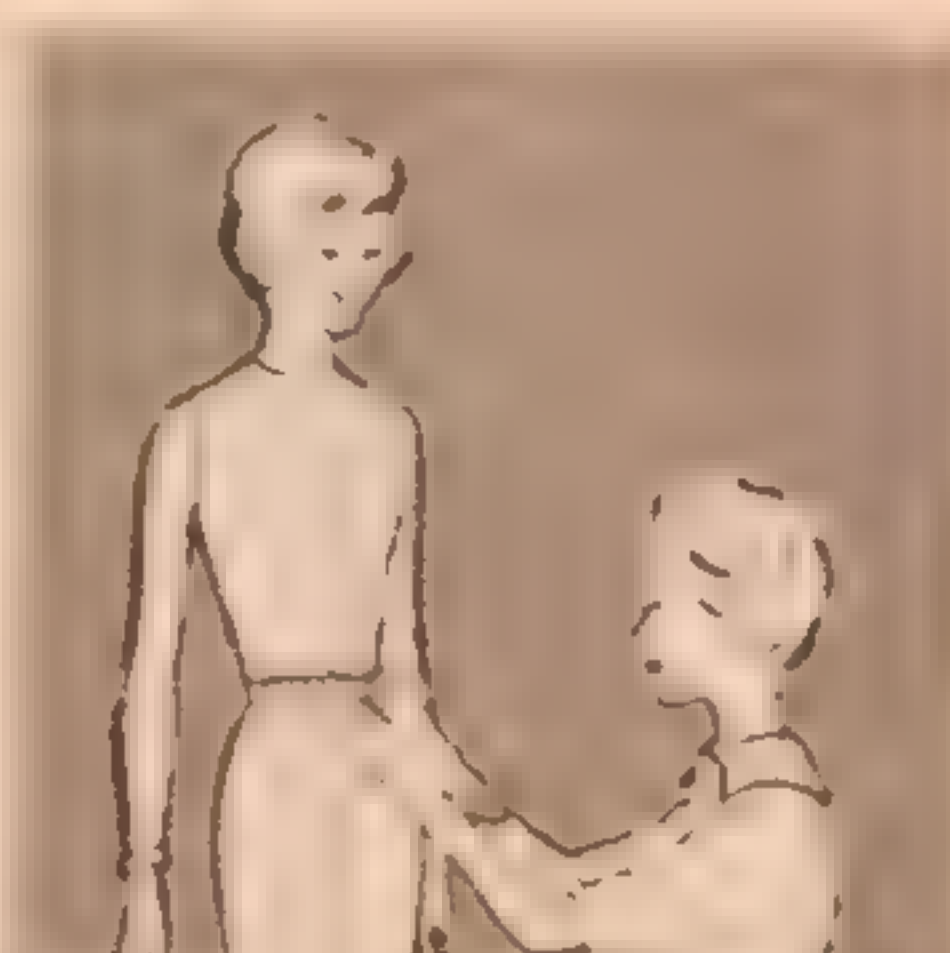

Fitted fashions—coats, suits, jackets, dresses, robes: measure bust, waist, hips. If between sizes, order size nearest waist and hip measurement. Box and Flare Coats and Toppers: measure bust only. If between sizes, order smaller size. Skirts, jeans, slacks, pedal pushers: measure hips, waist over underclothes. If between sizes, order larger size.

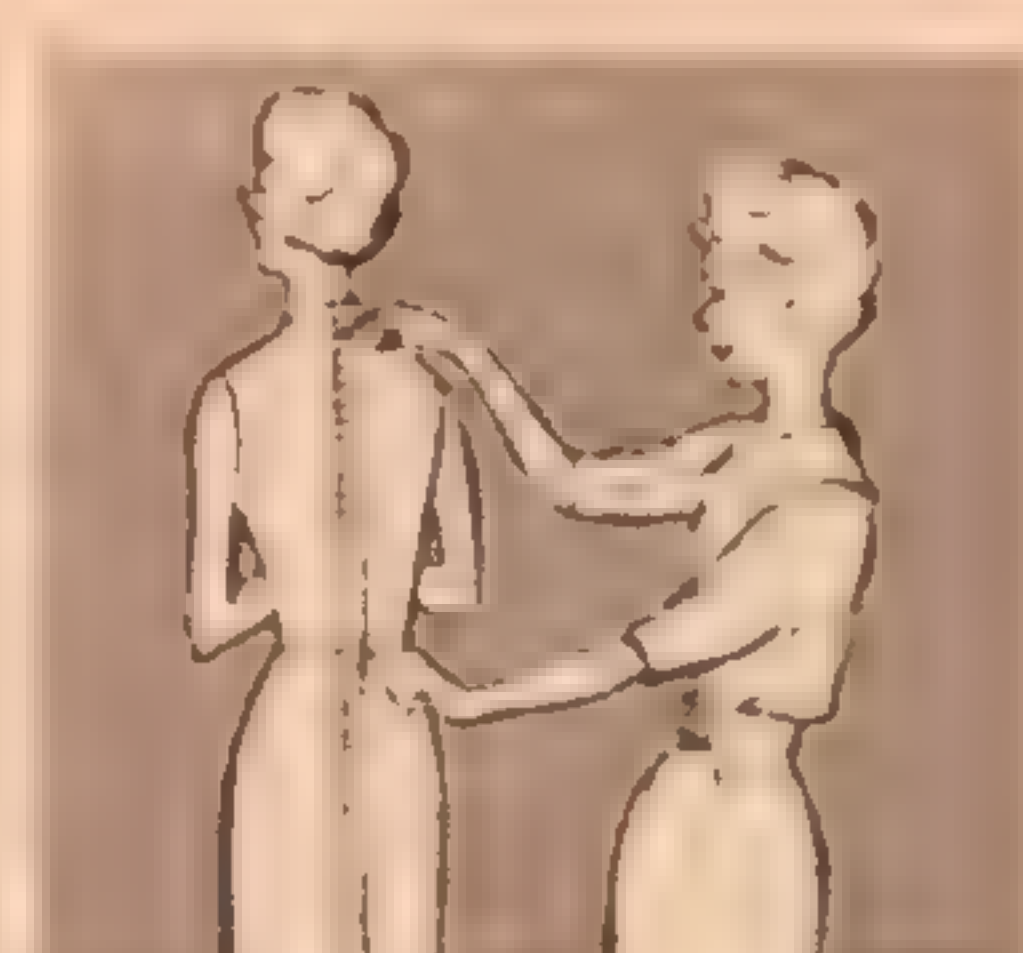

Place tape under arms, under bust.

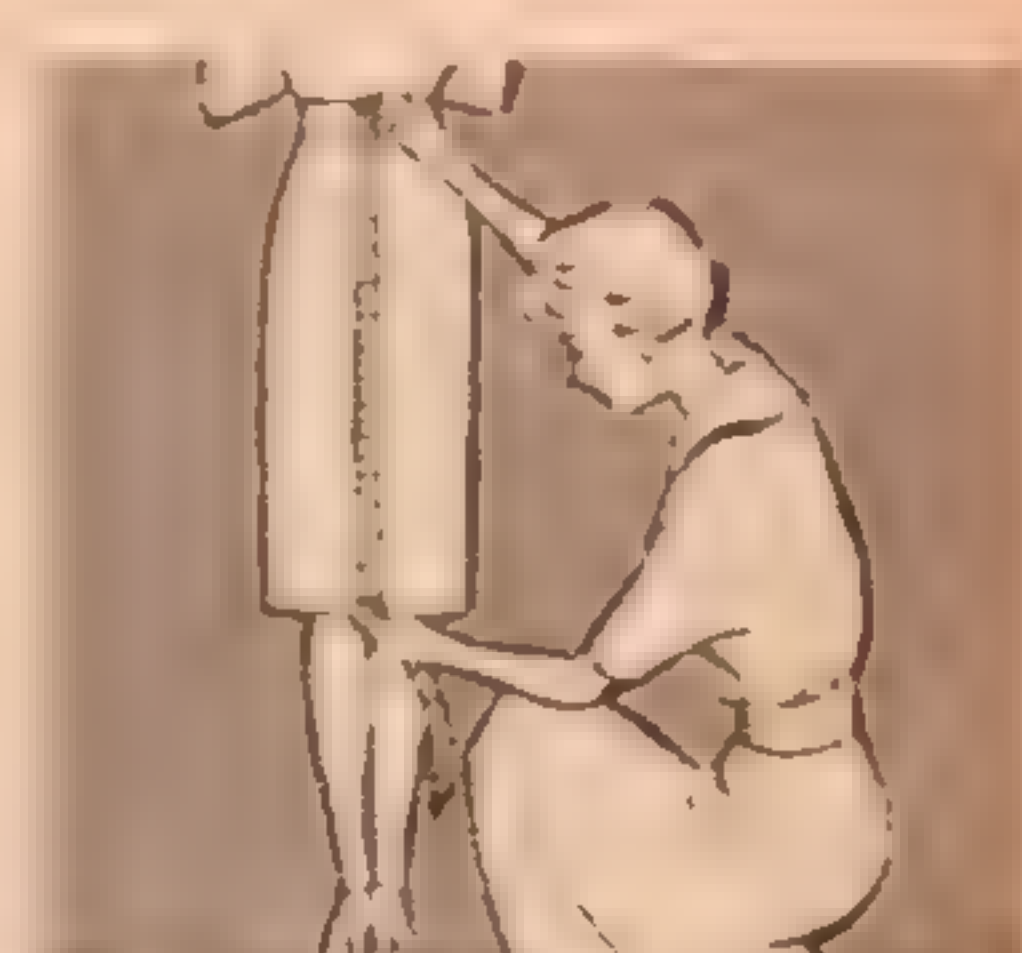

Measuring Hips—place tape over fullest part of the hips. Please hold tape snugly.

Measuring Waist—place tape around the natural waistline. Hold tape snugly.

Measuring Dress and Coat Lengths—follow body from nape of neck, waist to hem.

Measuring Skirt and Slack Lengths—take measurement from top of waistband.

## Misses' Sizes—for the average young figure

Figure is of average proportions throughout  
Height is 5 feet 4 inches to 5 feet 7½ inches in stocking feet  
Represents your largest fashion selection

	8	10	12	14	16	18	20	22
Bust	31	32½	34	35½	37	39	41	43

Coat Length	43	43½	44	44½	45	45½	46	46
Slack Length	—	39½	39¾	40	40¼	40½	40¾	—

**MISS**—proportioned for the taller-than-average miss who is 5 feet 6 inches tall in stocking feet, but has the identical body measurements in the Misses' Size Chart above for each particular size. These sizes are made 1-inch longer from shoulder-to-waist in addition to being 1½ inches longer in total length than Regular Misses' size range.

**PETITE**—proportioned for the shorter-than-average miss who is under 5 feet 4 inches in stocking feet, but has the identical body measurements as in the Misses' Size Chart above for each particular size. Petite Sizes are made shorter shoulder-to-waist in addition to being 1½ inches shorter in total length than the Regular Misses' size range.

## Junior Sizes—for younger, slimmer figures

Waistline is more defined than misses'  
Waist measurement is slightly shorter  
Length is about ½-inch shorter than misses'

	5	7	9	11	13	15	17	19

## Joan Browne Shows How to Measure

TO DETERMINE YOUR INDIVIDUAL BUST TYPE AND SIZE,  
FOLLOW DESCRIPTIONS BELOW

**Undeveloped or Very  
Small Development**—mature  
figures. Emphasize your  
by wearing a padded bra  
padding bust pads inside  
ally designed brassiere.

**Average Bust Development.**  
or slightly pendulous  
figure type requires an  
bra for correct fit plus a  
supported, youthfully shaped  
a more flattering figure.

**Full Bust Development.**  
cups for better cover-  
molded uplift; shoul-  
usually built-up for bet-  
assured assurance, greater  
figure improvement.

**A Cup: Small Development Bust.**  
For the firm or slightly sagging,  
young or mature figures. Small  
Bras aid in creating a firm, high  
bustline—assuring you of an at-  
tractive yet comfortable fashion fit.

**C Cup: Full Bust Development.** Only  
a bra with full, deep cups pro-  
vides the support needed to  
enhance the fuller figure type.  
Full Cup bras fit well, flatter, and  
also hold your bust comfortably.

**Pendulous Bust Development.** This  
figure type needs special treat-  
ment and expert fitting. Tissues  
cannot support breasts adequately.  
The Small, Average, Full or  
Ex. Full bust may be pendulous.

### TO GET PROPER FIT AND FLATTERY IN A BRA

(a) Measure your bust at the fullest part without Bra  
on. (Keep tape measure level in back.) If your bust  
is in between sizes, order the next size larger. (For  
example, if your bust is 35 inches order size 36.)

(b) To determine your individual bust or cup type  
for Bras, Bracelettes or Corsets, be sure to refer to  
silhouette chart plus descriptions to left of chart.

The Carol Brent Label is your assurance of Quality.  
All fabrics and elastics meet Wards top standards.  
Each garment is Wards Laboratory Approved. Joan  
Browne approves each style for accurate fit, comfort.

## Measuring Instructions

### Free Personalized Fitting Service

Proper Fit Guaranteed. Let Joan Browne, Wards Noted Foundations Consultant, be your guide to a more flattering, fashionable figure. Follow the charts below in selecting your particular figure type.

1. **Measure carefully** using the charts your measurements to Joan Browne, in nearest Wards Mail Order House. Service Joan Browne will be glad to answer any special problem you may have. Thanks to largest assortment of foundation garments, we guarantee you proper fit. Wards top quality. All garments, fabrics meet our standards and are Lab approved for long wear.

### To Measure for Girdle or Corset

- 1. **Measure waist around smallest part**, over a Slip only.
- 2. **Measure hips at fullest part**, across buttocks. Do not measure too tightly.
- 3. **Use chart below.**
- 4. **Measure from waist to place on thigh** where garter should end.

4 to 7 in. larger than waist	8 to 10 in. larger than waist	9 to 11 in. larger than waist	10 to 12 in. larger than waist
Small Hip	Average Hip	Av.-Full Hip	Full Hip

Waist is:	10-11 inches	12-13 inches	14-15 inches	16-17 inches
	Brief	Short	Average	Long

### To Measure for Corselet

- 1. **Measure your bust at the fullest part**, without a Bra. Tape level across back. To determine development, turn to the How-To-Measure charts on Page 205.
- 2. **Measure your waist around smallest part**, over a Slip or wear a foundation garment. Your waist should be 5 inches to 7 inches smaller than measurement. If it is smaller or larger, a corset with a bra is best for you.
- 3. **Measure your hips at fullest part**, across buttocks, foundation garment. Then select your corselet from the chart below.

1-2½ in. larger than bust	3-4½ in. larger than bust	4-6 in. larger than bust	5-7 in. larger than bust
Small Hip	Average Hip	Av.-Full Hip	Full Hip

4. **Measure your side from waist to place on thigh** where garter should end. If you are short from shoulder to hip, select half-size corselets, Page 236.

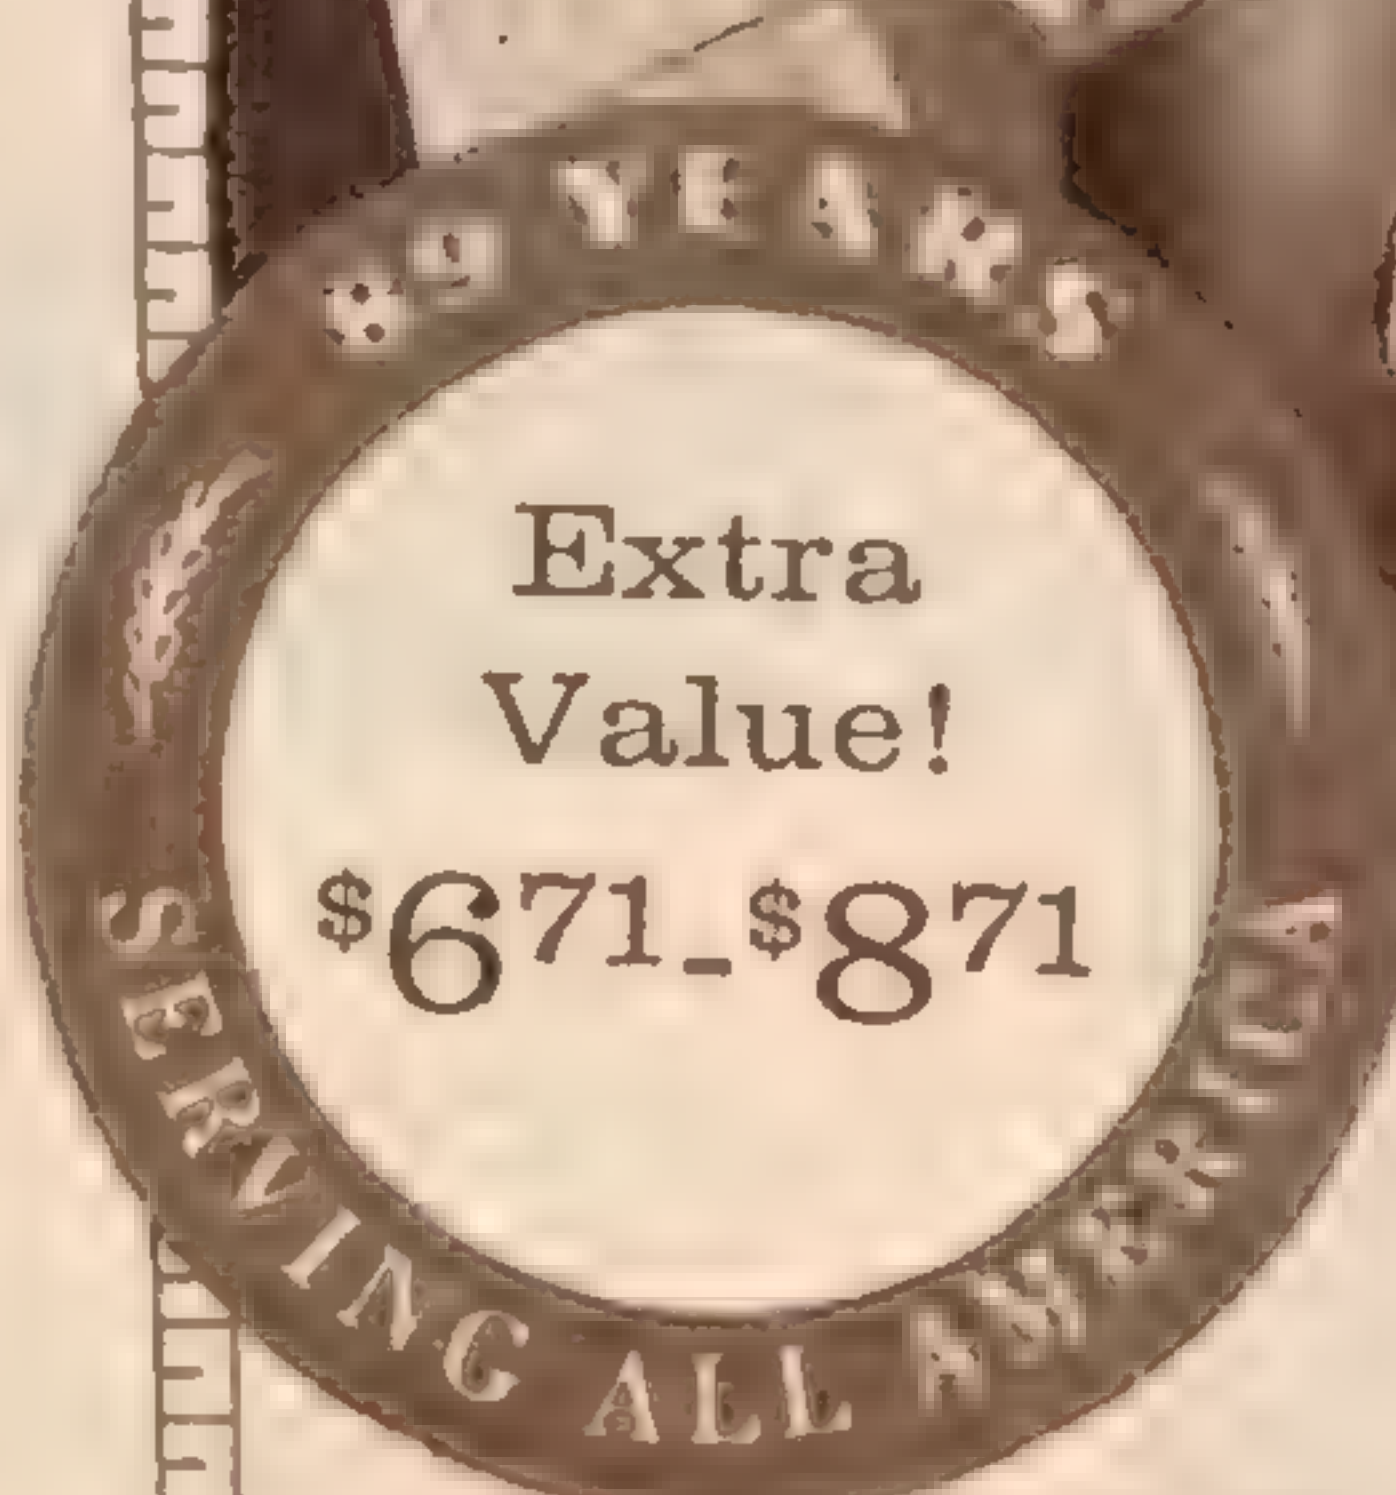

From waist to corselet is:	12-13 inches	14-15 inches	16-17 inches
Length:	Short	Average	Long

5. **Complete line of Junior Foundations** you're looking for. Turn to Page 245.

## Be Your Own Decorator with E-Z-Do Adjustable Wall Shelves

A Built-in Look at a budget price; easy to put up. Beautiful Walnut-grain Lifetime Microtex finish—mar, heat and stain resistant; never needs polishing. Wall-to-wall; floor-to-ceiling; or in-between. Shelves will adjust to any height from 1½ in. up. Wall Strips and Brackets are made of Solid Hardwood. Shelves are made of sturdy Hardboard (pressed Wood).

Design your own arrangement to blend with any decor. Just fasten strips to wall, then place shelves (or decorative pieces such as record cabinet (11) below). Rich walnut-like finish with Microtex surface keeps its gleaming patina—never needs polishing! Shelves require two brackets ea. (same depth as shelf). Use 3 Wall Strips and 3 Brackets on shelves over 36 in. long. Choose strips long enough for possible future arrangements. For living room, bedroom, etc.

# Wards Guarantees Proper Fit for Girls and Boys

order by size, not age...measure each time  
you order...use scales below

All Wards garments are made to fit body measurements in the charts below, which are based on a scientifically developed sizing system. If measurements fall between sizes, order the next larger size. Be sure style wanted comes in the size needed.

## CHART 1. INFANTS' SIZES 6 TO 30 MOS.

For babies from birth until they are learning to walk. Most important measurements are Weight, Height.

Order Size	6 Mos.	9 Mos.	12 Mos.	18 Mos.	24 Mos.	30 Mos.
If Chest is	18	18½	19	20	21	22 in.
If Height is	to 26½	27-27½	28-29	30-31½	32-34	34½-35½ in.
If Weight is	to 18	19-20	21-22	23-26	27-29	30-31 lbs.

## CHART 2...TODDLER SIZES 1 TO 4

For Toddler Girls and Boys who still have the shorter legs and rounded figure of infancy. Garments are cut fuller to allow for diapers; lengths are shorter than 2-6X Range. Most important measurements: Height, Length.

Order Size	1	2	3	4
If Chest is	20	21	22	23 in.
If Waist is	20	20½	21	21½ in.
If Height is	up to 31	32-34	35-37	38-40 in.
If Weight is	up to 25	26-29	30-34	35-38 lbs.
Dress Length	15½	16½	17½	— in.
Coat Length	—	17	18	19½ in.
Skirt Length	—	10	10½	— in.

## CHART 3. CHILDREN'S SIZES 2 TO 6X

For Girls and Boys whose figures are lengthening out, losing the rounded contours of infancy. Dresses, Coats are longer than for Toddlers. Most important measurements are Length, Height. For swimwear, check Weight.

Order Size	2	3	4	5	6	6X
If Chest is	21	22	23	24	25	25½ in.
If Waist is	20½	21	21½	22	22½	23 in.
If Height is	up to 34	35-37	38-40	41-43	44-46	47-48 in.
If Weight is	up to 29	30-34	35-38	39-44	45-49	50-54 lbs.
Dress Length	—	19½	21	22½	24	25½ in.
Coat Length	—	—	21½	23	24½	26 in.
Skirt Length	—	11	12	13	14½	15½ in.

## CHART 4. GIRLS' SIZES 7 TO 14

For Grade School Girls whose figures are straight up and down and who are still undeveloped. They are shorter than Teens, below. Most important measurements: Height, Chest, Waist. For slim skirts and sportswear, check Hips. For swimsuits, check Weight.

Order Size	7	8	10	12	14
If Chest is	26	27	29	30½	32 in.
If Waist is	23	23½	24½	25½	26½ in.
If Hips are	27½	28½	31	33	35 in.
If Height is	50	51-52	53-56	57-58½	59-61 in.
If Weight is	60	67	83	95	107 lbs.
Dress Length	27	29	32	35	37 in.
Coat Length	28	30	33	36	38 in.
Ankle Pants Length	29½	31	34	35½	37 in.
Skirt Length	18	19½	22	24	26 in.

## CHART 5...TEEN SIZES 8 TO 16

For the High School Girl whose figure is beginning to develop; her waist is slimmer in proportion to bust. Needs longer length. Most important measurements are Length, Bust, Waist. For slim skirts, sportswear—check Hips. For swimwear, check Weight.

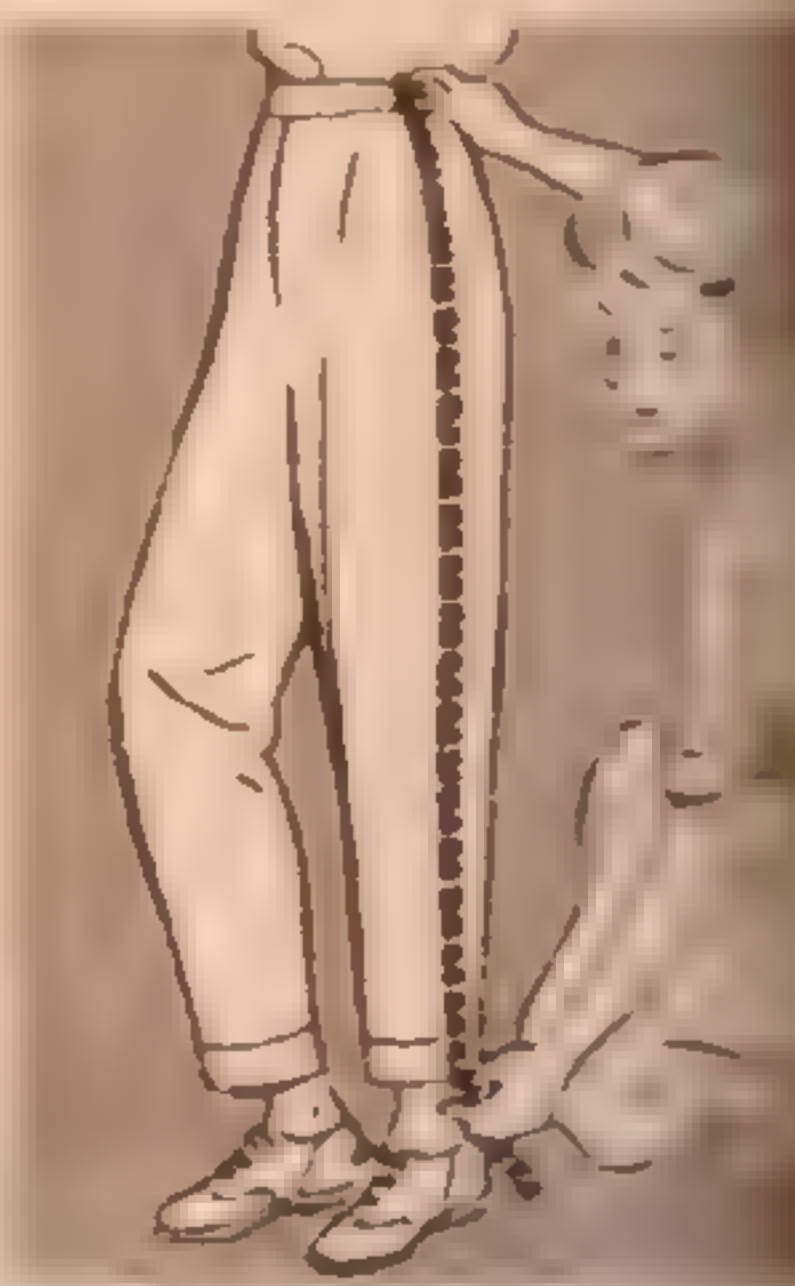

Order Size	8	10	12	14	16
If Bust is	29	30½	32	33½	35 in.
If Waist is	23½	24½	25½	26½	27½ in.
If Hips are	30½	32½	34½	36½	38½ in.
Height up to	61½	62½	63½	64½	65½ in.
Weight up to	83	93	105	117	127 lbs.
Dress Length	39	40	41	42	43 in.
Coat Length	40	41	42	43	44 in.
Ankle Pants Length	36½	37	37½	38	38½ in.
Skirt Length	25	26½	27	27½	28 in.

Measure Height: stand against wall without shoes.  
Measure Chest with tape under arms; Waist at natural waist; Hips at widest part.

Dress or Coat Length: follow natural curve from nape of neck to waist and from waist to the length.

Slack Length: measure top of waistband, side of leg to cuff.  
Skirts: top of waistband to hem or to length.

## EASY STEPS IN MEASURING BOYS' WEAR

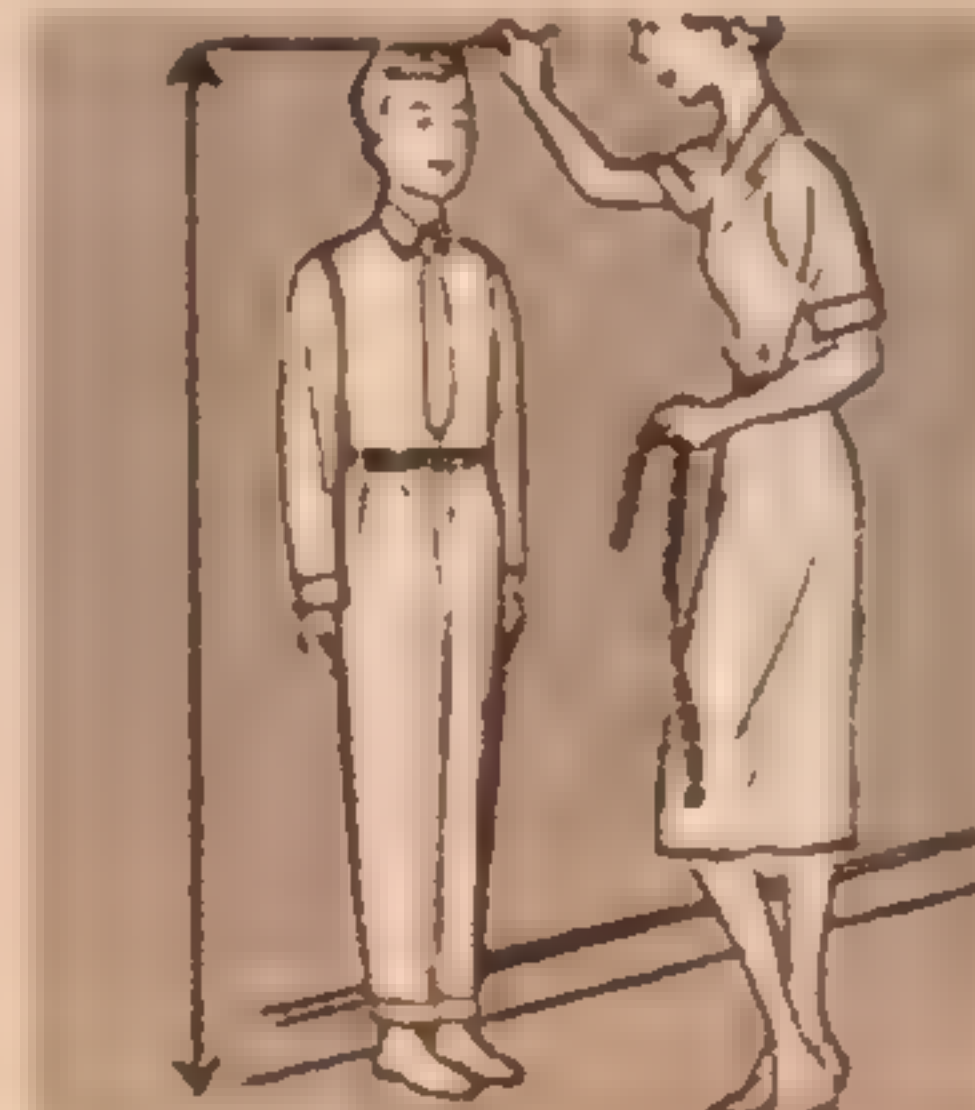

**Chest:** Take measurement over shirt, holding tape well up under the arms. For Outerwear, measure over clothing to be worn underneath.

**Waist:** Measure over trousers with belt removed; the number of inches is waist size. When measuring, hold tape snug, yet not too tight.

**Inseam:** Take well-fitting trousers, lay flat; measure from crotch seam down the inside of leg. State which is waist, which is inseam.

**Height:** Take without shoes. Have boy stand erect, heels touching wall. Mark wall directly behind top of head, measure from floor to mark.

**Neck:** Put tape around neck. Check Size S for size corresponding to measurement; only, not neck.

## EV-R-DRI MATTRESSES...BEST FOR BABY

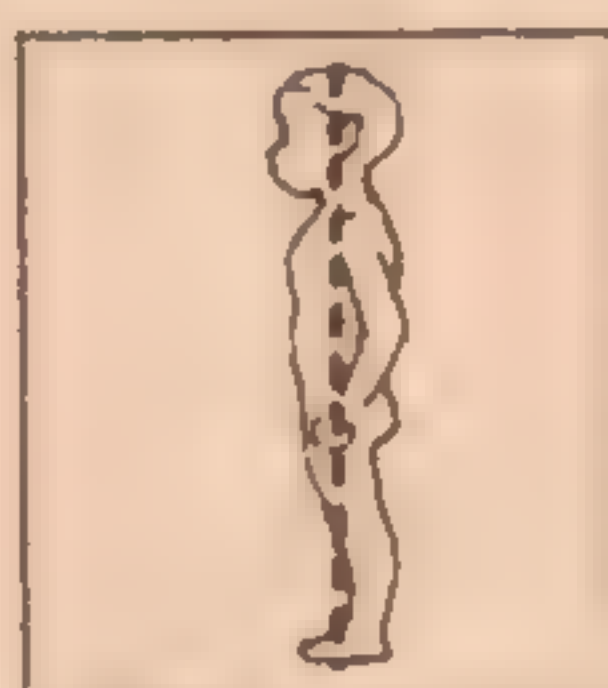

### Tested Jump-Proof

Your baby's mattress must take jumping as well as sleeping. Ev-r-Dri Mattresses are tested to simulate years of children's hard use...

50,000 BOUNCES, by special apparatus, produced this effect. Each mattress was then opened and thoroughly examined by experts.

RESULT... No damage, no breakdown. Sagging, lumping, cover deterioration were NOT present... proof of Ev-r-Dri's fine quality, wonderful economy.

### Posture Design

Pediatric features doctors advise. Ev-r-Dri Mattresses give firm support to young, growing bodies 6 to 60 lbs.

### Snag-Proof

Covers are fabric-supported plastic; much stronger than plastic alone. Resists snags and tears.

Waterproof cover... cleans a damp...

① 140-COIL EV-R-DRI MATTRESS. Built firm for good posture. All-around border wire keeps edges firm and neat. Coils are encased with woven Sisal pads to prevent "coil feel." Thick, felted Cotton over Sisal for posture-right, sleeping surface. Wetproof cover is of strong, fabric-supported, Vinyl plastic—resists tears and snags. Colorful, Harlequin pattern. Ship. wt. 23 lbs.

66 A 2405 R—Abt. 28x52 in.; fits all 6-yr. cribs... \$12.87

② 240-COIL EV-R-DRI MATTRESS. High coil count provides extra wear and extra firmness so necessary for young, growing backs. Coils are encased with unbreakable, woven Sisal to prevent "coil feel." Extra-thick layers of felted Cotton over Sisal assure a comfortable sleeping surface. All-around border wire keeps edges firm.

WETPROOF COVER is of heavy-duty, fabric-supported Vinyl plastic—stronger and heavier than used on (1). Resists tearing better than quilted plastic. Gay nursery pattern. 4 side vents permit air to circulate, keeping interior fresh and clean. Size: About 28x52 inches—fits all 6-yr. cribs. 66 A 2409 R—Shipping weight 24 lbs..... \$14.87

③ POLYFOAM EV-R-DRI MATTRESS with full reverses on both sides... reverses for longer use. 1 inch thick Polyfoam. Super-firm, super-bouncy surface... won't sag, lump or shift. Rubber-core adjusts itself to every curve of the body utmost in sleeping comfort plus firm, level baby's posture.

COOL, FRESH AND ODORLESS. Polyfoam is non-absorbent, dust and odor free. Tiny pores circulate naturally for a cleaner, cooler... collect dust or air-borne irritants.

WATERPROOF COVER, on both sides, is heavy supported Vinyl plastic—stronger than used on (1). It's the most tear and snag resistant cover will take hard use by active youngsters. 4 let fresh air circulate. Colorful nursery print. About 28x52 in.—fits all 6-yr. cribs.

CONE MILLS' AMAZING "FABRIC 1-2-3" GABARDINE

**JUNIOR PREP YOUTH**

SLIM  
REGULAR  
HUSKY

"1-2-3" Slacks Have  
Earned This Seal.

1. Most amazing fabric-news in years—a dress slack fabric so strong it has 3 times the abrasion resistance of heaviest weight All Cotton Denim! Means longest wear ever possible.
2. It keeps clean and neat with hardly any work by you. Real Automatic Wash 'n Wear... just machine wash, drip or tumble dry and they're ready, with little or no ironing.
3. We'll send you your money back if slacks show undue signs of wear or if seams rip within one year. Fabric and construction have earned Good Housekeeping seal of approval.

TOP FABRIC **\$4.77** TO **\$7.87** TOP TAILORING

**Royal Oak Dress Slacks at their very best.** "1-2-3" Gabardine is a superb blend of 65% Dacron Polyester, 35% Rayon. Testing showed it had 3 times the abrasion resistance of heaviest All Cotton Denim! After 5 washings, this margin of superiority widened! And, after 5 washings: we tumble-dried it, gave it a mere touch-up ironing and it had a perfect, wrinkle-free press. Meticulously tailored down to the last stitch by Master Trouser—one of America's leading manufacturers. University style; pleatless front, 4 pockets, tapered legs, Waldes zip fly, cuffs. Charcoal Gray, Dk. Brown or Navy Blue. Machine washable.

**JUNIOR SIZES.** As above plus elastic side inserts, self-belt. Sizes: 4, 6, 8, 10. Size Scale, How To Measure, facing page.

33 A 1870—Ship. wt. 1 lb. State size and color.....**\$4.77**

**PREP SIZES.** Proportioned Slim, Regular, Husky sizes. No belt. Sizes: 10, 12, 14, 16. Slim in size 8 also. Scale on facing page.

**Slim.** Especially tailored for the slim, rangy boy with smaller waist, seat and thigh measurements. Also has longer inseams.

## FOOT SIZE SCALE

1. PLACE LEFT FOOT ON CHART: Be sure child is seated with shoes off and socks on. Take a ruler and hold it vertically along bottom dotted line of chart. Place child's left heel against the ruler.
2. READ FOOT SIZE FROM CHART: Press the child's foot down. Read size directly above the longest toe. For between sizes, take the larger number.
3. DON'T MAKE ALLOWANCE FOR GROWTH: The chart provides ample room for normal foot growth.

**C 100% Waterproof Wash 'n Wear Poplin** All  
Weather Coat that's perfect for any whim of the  
weather-vane. A leading laboratory proved that  
this Combed Cotton coat repelled water at the rate  
of 1 inch rainfall per hour, while the wearer of a  
regular water-repellent coat became sopping wet  
after 10 minutes. It's fluorochemically treated to  
resist oil and water-borne spots and stains, too!  
Wash in your machine, drip dry and wear with  
little or no ironing. Waterproofing lasts through  
many washings. Styled and tailored like a top-

# NEW Stratolite Luggage FOR 1961

## Travel With Our Finest Luggage

- New Contour Shape—Very Newest Elongated Look
- New Concave Contour Locks and Handle Base
- Locks Automatically When You Close the Lid
- Modern Molded Construction—Light But Tough
- New Molded Handle Makes Carrying Comfortable
- New Bindings Absorb the Shock of Hard Travel
- New Handsomely Beautiful Harmonizing Linings
- Textured Vinyl Outside Cover—Smart Colors

**New Stratolite... Our Finest HAWTHORNE Luggage yet!** It's packed with features sure to please—built to take the hard wear of modern travel. Ultra modern contour-mold shape is a joy to behold—its deluxe beauty belies its low cost. Now... close the lid and the lock closes! Easy to care for, too... just wipe it clean with a damp cloth and it's as nice as ever.

**Exclusive HAWTHORNE Molding Process.** Sturdy Fabric backed Vinyl cover permanently pressure sealed to strong Fiber case—richly textured outside. Heavy Vinyl bumpers act as cushion against bumps and accent its shape—no exposed stitching to break.

**Concave Contour Automatic Locks and Handle-Base** are the latest deluxe style. Polished Bright Chrome-plated steel—absolutely rustproof.

**Contour-Mold Shape** further accented by Vinyl covered valance that encircles case—forms recessed channel. Steel closure acts as dust seal.

**Luxury Linings.** Ladies' cases with newest small diamond quilted pattern Acetate Rayon linings. Men's with quilted Gabardine-weave Rayon.

**Extra Features.** Unbreakable Metal bottom gliders. Matching Plastic Identification Tag. High Impact Styrene handle.

## It's easy to Order your Ring from Wards

Order from Wards nearest Mail Order House. State color gold if there is a choice and BE SURE TO STATE FINGER SIZE: Women's Rings 4-9, Men's Rings 7½ to 14.

If you do not know your ring size, here is a simple way to measure. Cut a piece of cardboard in tapered shape as shown at left. Slip an unbent ring that fits your finger over narrow end of cardboard till it stops. Draw a line on both sides of ring shank. Send only the marked cardboard with order.

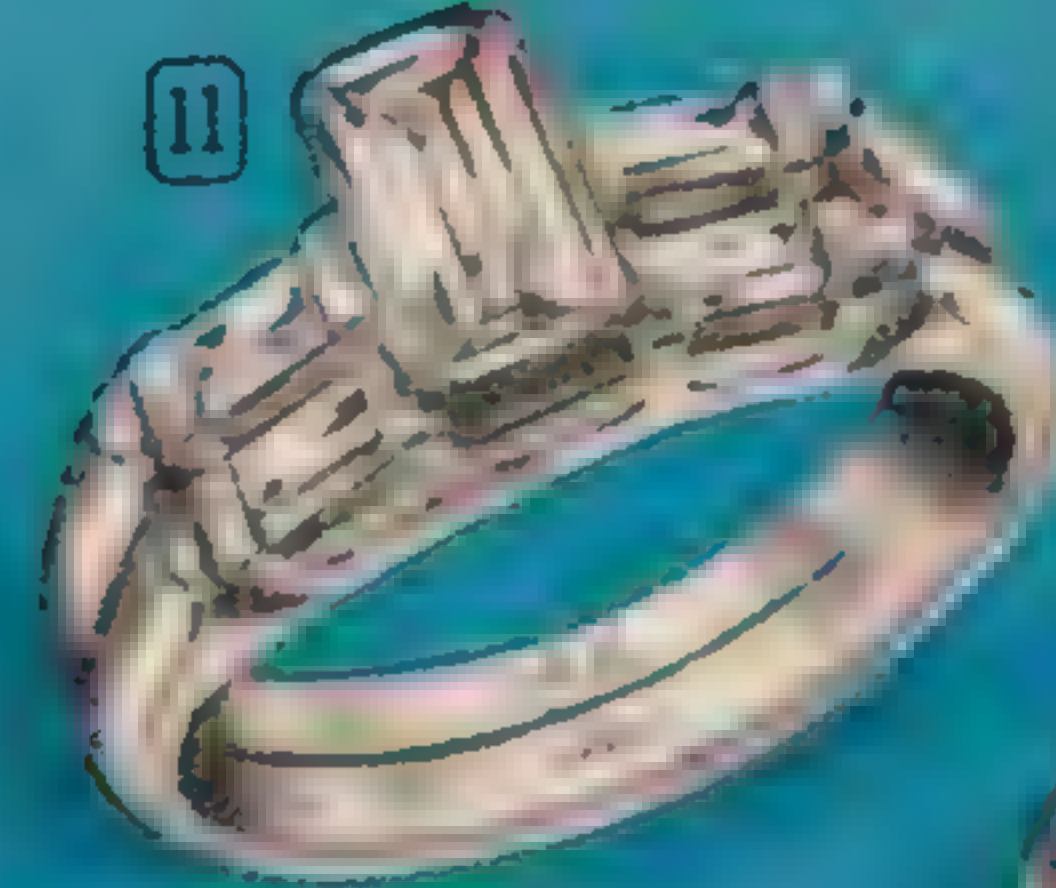

## INTERLOCKING

Interlocking Bands where stated as engagement and wedding Rings. Interlocking bands hold together, preventing pulling, separating.

## BETTER All These Features For Under \$100

- Twin Sapphire Turnover Needles in Ceramic Cartridge
- Two 5½-inch Dual Cone Speakers Plus 6-inch Speaker
- Three Tubes Plus Rectifier; Response 50-16,000 cps

**B** You won't believe your ears when you put your first stereo record on this fascinating Airline phonograph. Instead of the music coming from a single speaker or even two speakers, you are exposed to a new sound . . . It's almost as if the walls of your room suddenly disappear and you find yourself in the center of an orchestra.

The secret is Airline Panoramic Stereo's 3 separate sound systems. The stereo that gives music form, movement and depth; stereo for people to love being present in the theater or concert hall.

Two 5½-inch dual cone heavy-duty speakers in detachable speaker enclosures plus a 6-inch woofer in the body of the machine, to give you the stereo sound—highs and mid ranges from the left and right and on-directional lows in the center.

Dual Volume, Bass Tone, Treble Tone knobs each control all three sound systems simultaneously. A single balance control knob balances the loudness from all three speaker systems to suit your own preference and the acoustical conditions of your room. Separate switches for On-Off and record speed selection.

Frequency response of 50 to 16,000 cycles per second gives you true reproduction of highest and lowest pitched sounds.

Fully automatic VM record changer intermixes 10 and 12-in. records of the same speed, turns itself off after the last record plays. Twin sapphire turnover ceramic cartridge plays 78-, 45-, 33⅓- and 16-rpm records. Three tubes plus rectifier. Spindle for automatic playing of 45-rpm records is included.

Made of laminated wood covered with an Iridescent Blue fabric with over-color overprinting. Has a handsome Pearl White trim and a Blue and White fabric grille cloth. Lightweight, easy to carry from room to room. Size: 21¾x19x9-in. high.

# Airline 3-D PANORAMIC STEREO CONSOLES

FINEST 3-DIMENSIONAL SOUND AND SUPERB FURNITURE STYLING A MONEY-SAVING

## What Does Airline 3-D Panoramic Stereo Give You?

It's an improved form of stereophonic reproduction which eliminates the undesirable hole-in-the-middle common to older stereo sets with only two sound systems. All stereo records have two tracks of sound information. Older stereo sets take one track of sound information and play it through a left sound system and the other through a right system.

Airline 3-D Panoramic Stereo separates the sound from the two tracks of your record into three groups, the high and middle tones of the left, the high and middle tones of the right, and the non-directional low tones. The highs and mid-tones are played from both sides, the lows from the center. The result is a full vista of sound—no hole-in-the-middle. Even standard (non-stereo) records sound more life-like when played on an Airline 3-D Panoramic Stereo Console.

## Hear Them in Your Catalog Store

Many Ward Catalog Stores will have the Airline 3-D Panoramic Stereo sets from these two pages on display in coming months. You'll certainly want to stop in and listen to them. It's the thrill of a lifetime to hear for yourself the life-like you-are-there music reproduced by these quality instruments.

You'll also be able to see and feel the beauty of their cabinetry, the satin-like smoothness of their glowing all-wood finishes. Helpful people will be happy to answer any questions and to arrange delivery and terms.

## Fine Furniture

From the drawing boards of expert furniture designers to the selection of the genuine hardwood veneers used in all but one of these consoles, every step has been carefully controlled to assure the most tasteful appearance and the highest sound quality.

All components have been selected and balanced to complement one another. You can be justly proud to locate any of these consoles in a place of dignity in your home.

## Airline's GOOD Stereo Hi-Fi With Deluxe FM/AM Radio

**\$209<sup>95</sup>** \$10 Down Mahogany

**(A) (B)** Three fine Airline 3-D Panoramic Stereo consoles in wood veneers in traditional and modern styles. Quality-built for fine stereo reproduction.

Two separate amplifiers feed sound information from records into three separate sound systems, a left and a right system each composed of a 5-inch speaker for high and mid-range musical tones; plus a central 12-inch heavy duty woofer for non-directional low ranges—three speakers in all, each performing a separate function to bring you the utmost in listening pleasure.

A frequency response of 30 to 15,000 cycles per second—enough to cover the whole range of sound audible to the human ear.

A built-in Airline De Luxe FM-AM radio with Automatic Frequency Control to lock the station in tune for drift-free performance.

Plays FM and AM simultaneously to receive stereophonic simulcast programs.

Eleven tubes plus a rectifier. The peak output is 14 Watts (10 Watts is the maximum undistorted output).

The VM turntable with automatic record changer features the Airlight tone arm described above. It has twin Sapphire needles in a turnover cartridge to play all four speeds—78-, 45-, 33 $\frac{1}{3}$ - and 16-revolutions per minute.

The entire machine turns off automatically after the last record has played. A high-quality constant speed motor reduces wow and rumble (sound distortion) to a minimum and brings you the beauty of sound as recorded.

It has a control panel with four pushbuttons—Off; AM radio; FM radio and FM graph. Six tuning knobs—Loudness; Balance; Bass tone; Treble tone; AM tuning and FM tuning. Push AM and FM buttons together for simulcast.

Two output jacks are provided for attaching wide-scope twin extension speakers sold at right—useful for increasing stereo effect, especially in large rooms.

The all-wood cabinets are designed to acoustically complement the sound as well as being beautiful pieces of furniture in their own right. They are constructed of genuine wood veneer and hardwood bracing.

**(C)** Here's modern 3-D Panoramic Stereo sound in a moderately priced console built to high quality furniture standards.

The VM changer turns off automatically after the last record has played. It has two Sapphire needles to play 78-, 45-, 33 $\frac{1}{3}$ - and 16-rpm. records.

Two separate amplifiers. Three separate sound systems. The left and right systems each have a 6-in. speaker for high and mid-ranges. The center system has a heavy duty 12-in. woofer for non-directional low notes; 3 speakers in all. Frequency response: 30-15,000 cycles per second for complete sound range.

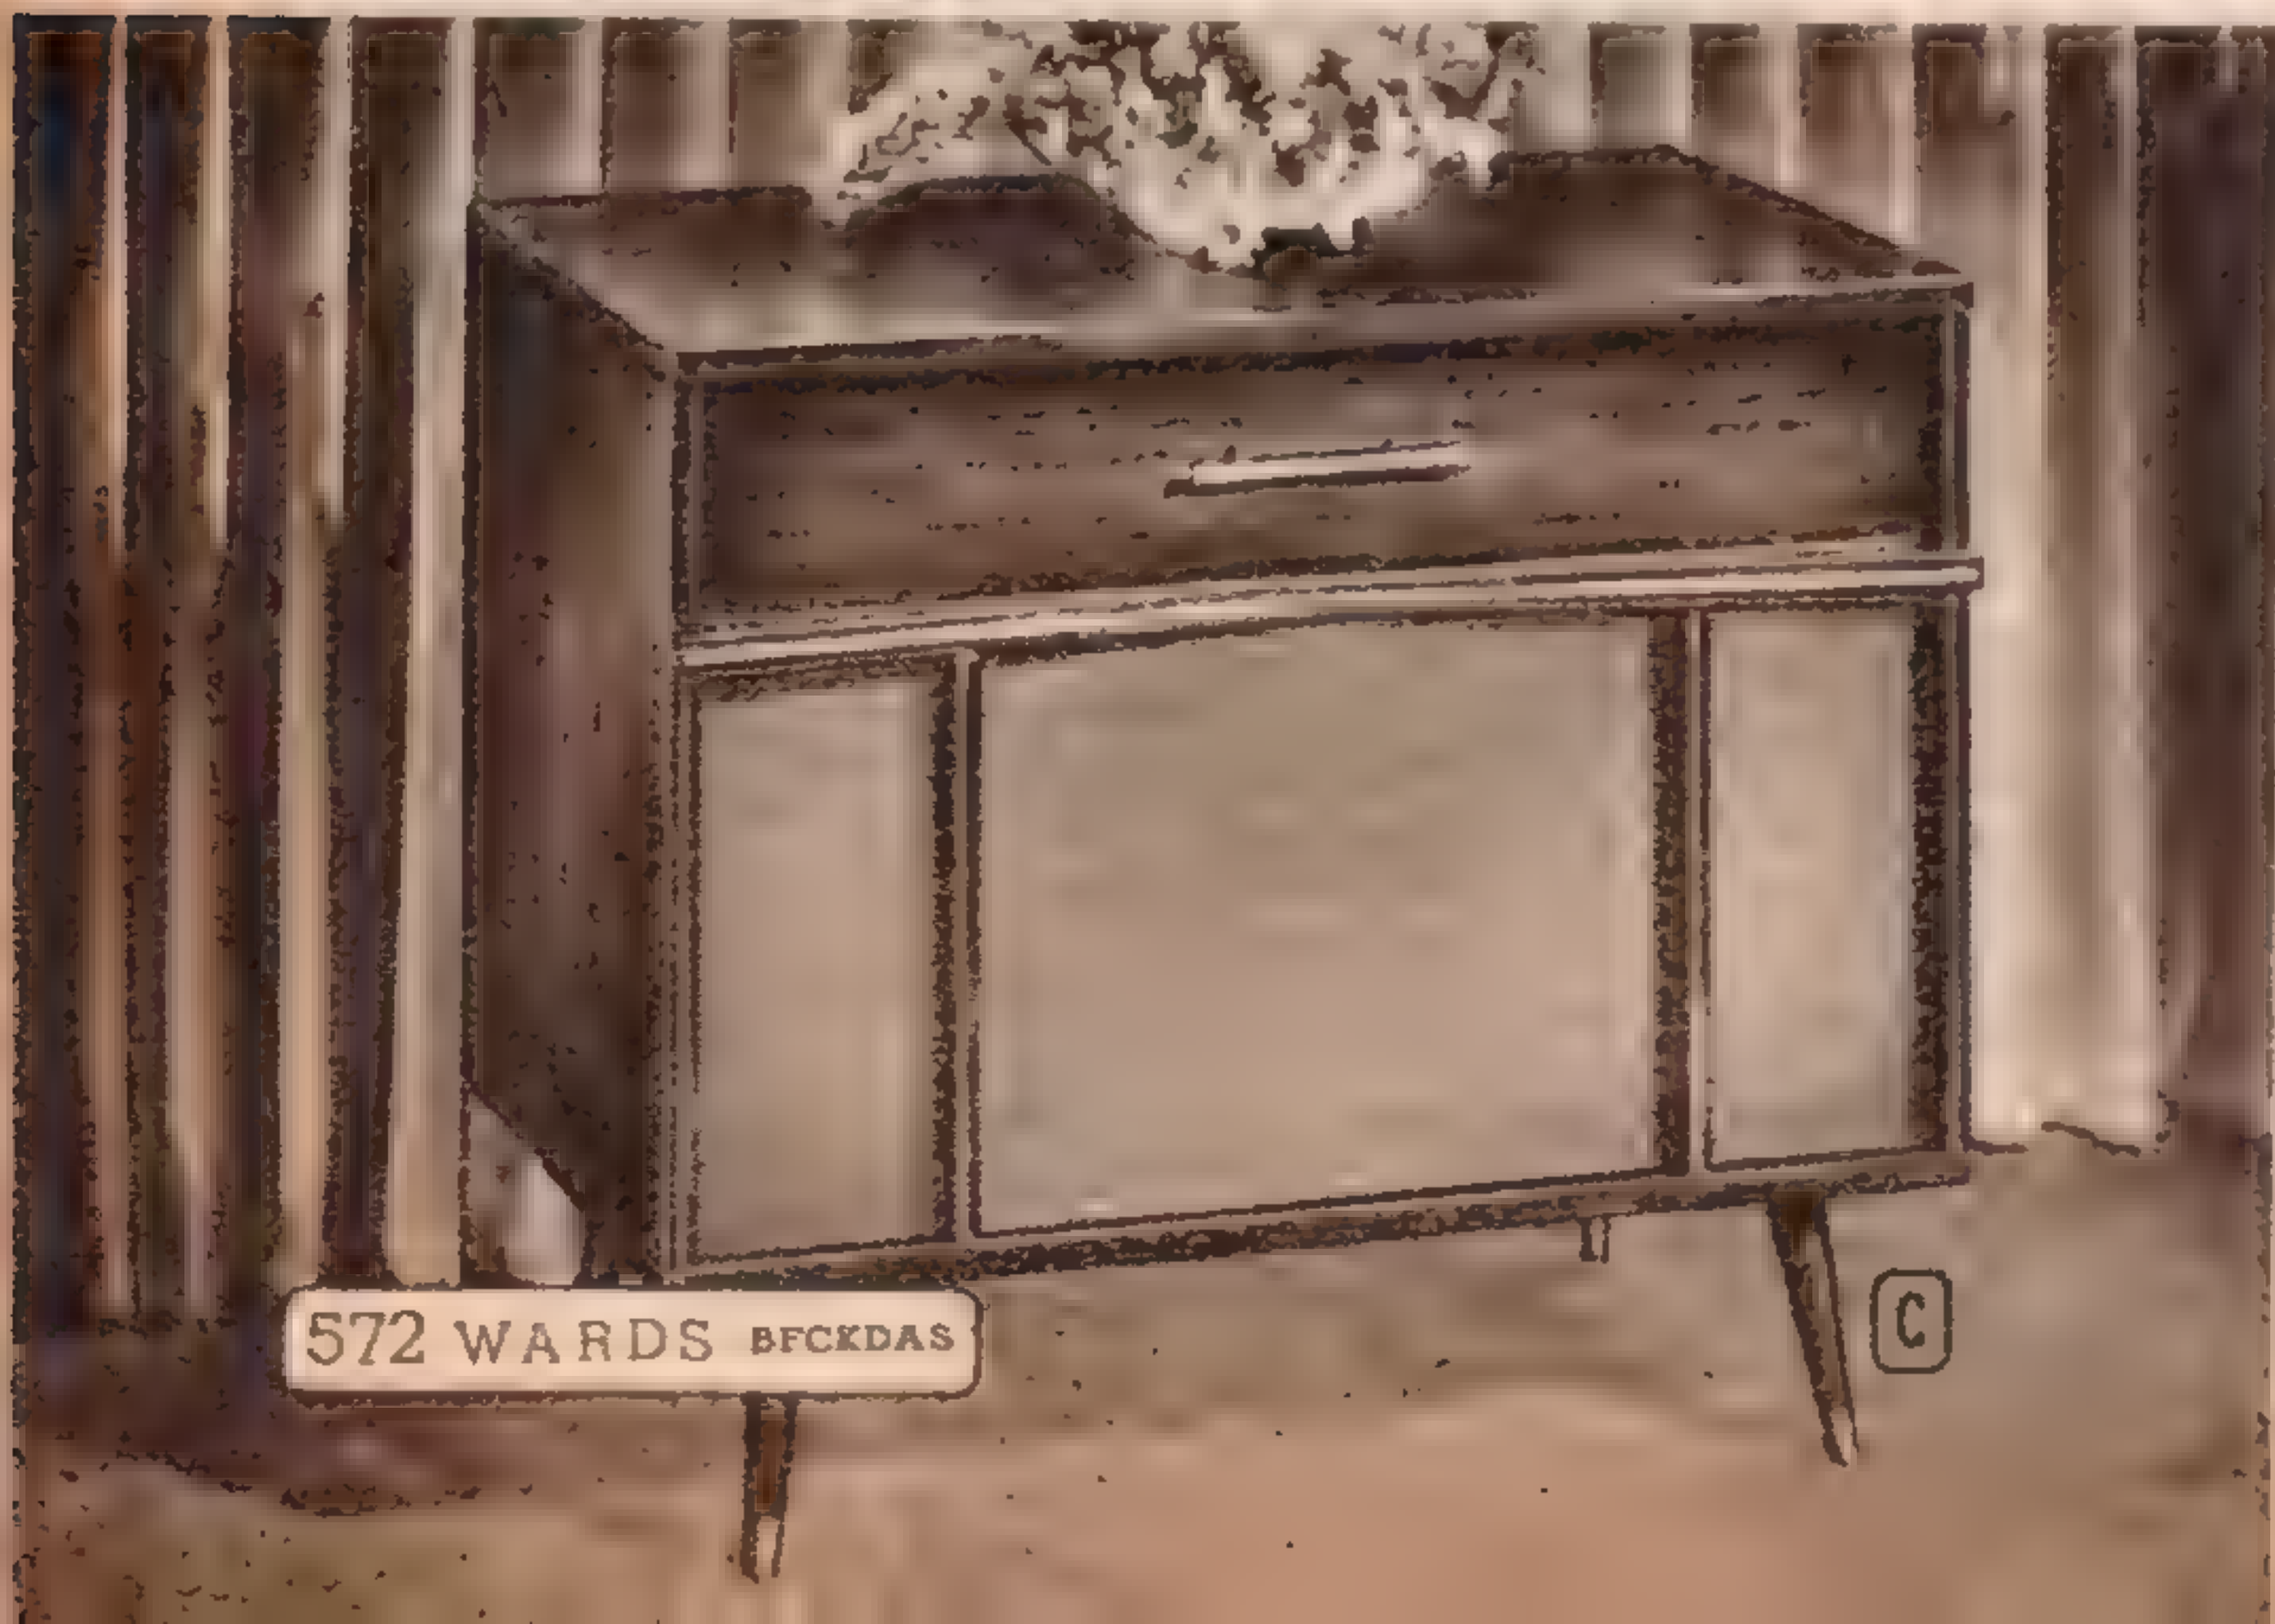

14 Watts peak output (10 Watts undistorted). 3 tubes plus rectifier. Two output jacks are provided for attaching extension speakers (see facing page). Three controls—Balance, Loudness, Tone to coordinate the sound.

The all-wood cabinet is designed to acoustically complement the sound system. It is tastefully constructed of genuine wood veneer, hardwood bracing. A handsome addition to your living room. ## Airline's **BETTER** Stereo Hi-Fi Sets With Supreme FM/AM Radio

**(D) (E)** Turn your thoughts for a moment to fine music—imagine the sweet melancholy of a Stradivarius violin. Listen to the deep-throated rumbling of the bass drum. Will your present record playing equipment reproduce these thrills in their original form? These superb Airline consoles will—perfectly. And Airline 3-D Panoramic Stereo gives these beautiful sounds form and movement and depth. You wouldn't hear the music any better if you were there. Many music experts choose listening to fine recorded music this way in preference to being present in the concert hall surrounded by distractions.

**Here's why these Airline Consoles reproduce music so magnificently:**

**Two separate amplifiers** feed the sound information from your records into three separate sound systems, a left and a right system composed of two 5-inch speakers (one tweeter and one mid-range on each side) plus a central 12-inch heavy duty woofer for the non-directional low ranges—five speakers in all, each performing a separate function.

**Frequency response of 30 to 15,000 cycles per second**—enough to cover whole range of audible sound.

**A built-in Airline Supreme FM-AM radio** with automatic Frequency Control to lock the station in tune for drift-free performance. The set will play FM and AM simultaneously to receive popular stereo simulcast broadcasts on FM and AM stations.

**They have 13 tubes plus a rectifier.** The peak output is 26 Watts (14 Watts undistorted).

**The VM turntable** with automatic record changer features an extra-heavy base and the Airlight tone arm described above. It has a diamond needle for 16-, 33 $\frac{1}{3}$ -, and 45-rpm records and a Sapphire needle for 78-rpm's.

**Entire machine turns off automatically** after last record has played. A constant-speed motor reduces wow and rumble (sound distortion) to a minimum.

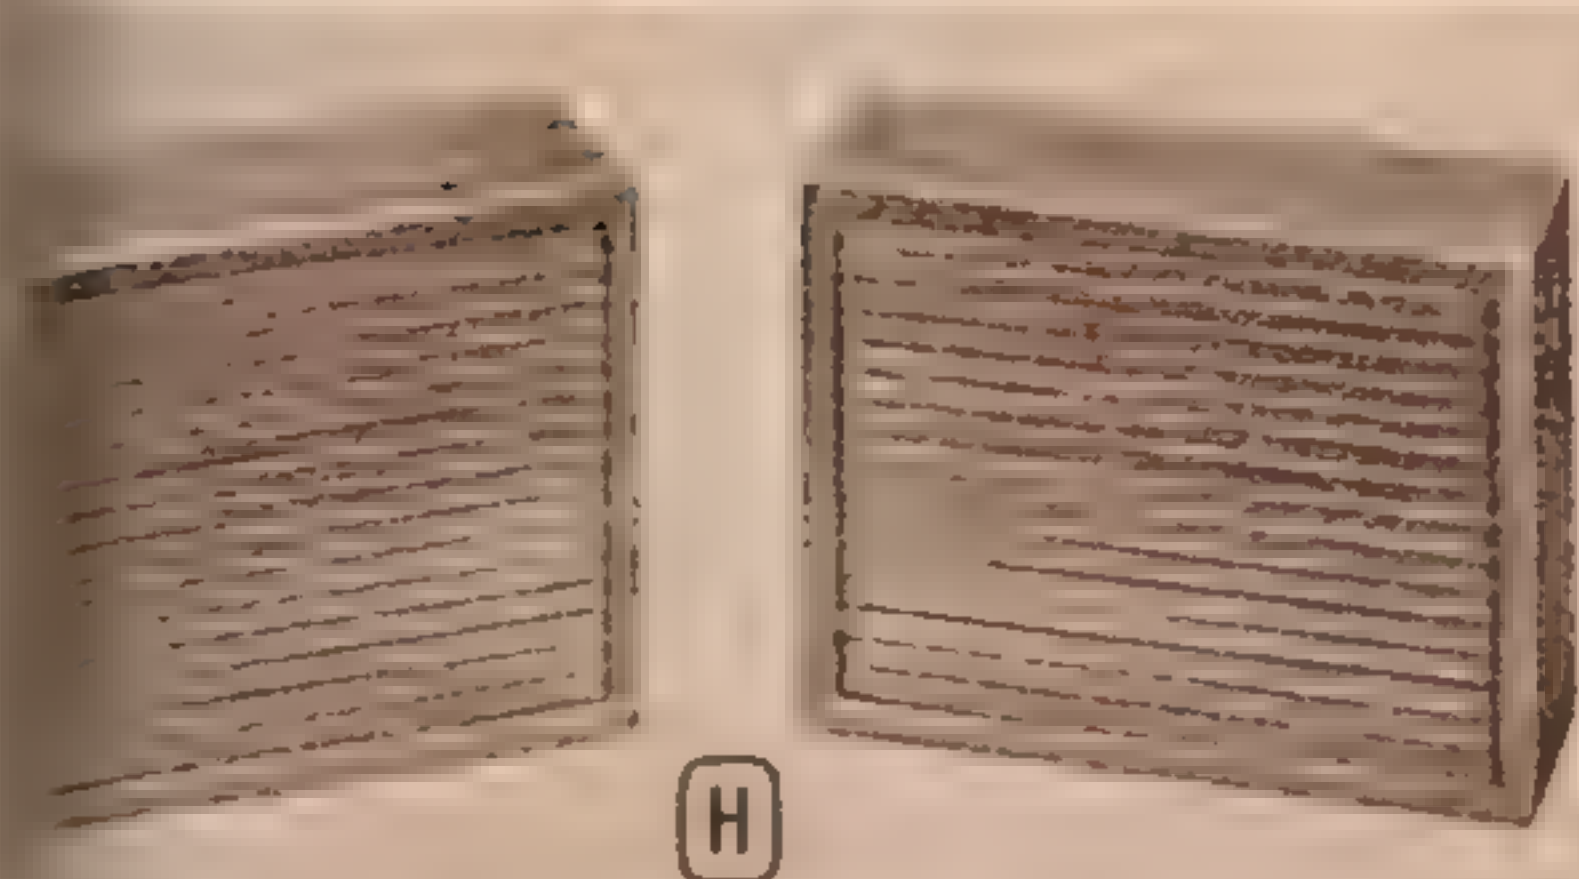

**They have Airline's exclusive pushbutton control panel.** The six pushbuttons are for: Off; AM radio; FM radio; FM lock; Simulcast and Phonograph. The six handy control knobs are for: AM tuning; FM tuning; Loudness; Bass tone; Treble tone and Balance.

**Two output jacks** for attaching extension speakers sold at left below—for increasing stereo effect especially in large rooms.

**The all-wood cabinets** are designed to acoustically complement the sound system as well as your own good taste. Constructed of genuine wood veneer and hardwood bracing. Size 40x16x33 in. high including 6-in. legs. \$10 Down, \$13, \$13.50 Monthly.

### 3 Big Advantages of 23-Inch Picture Tube

All 1961 Airline TV Consoles have the latest development in a large rectangular picture tube—23-inch† overall diagonal measurement; big 282-square-inch viewing area in all. (1). It reproduces the *Full Picture* as it is being transmitted LIVE or the way it was filmed originally. (2). Glass is bonded to the tube to eliminate dust collecting between the surfaces and for greater safety. (3). Gives a minimum of reflection as there is only ONE surface to reflect the light.

### Fine Furniture Styling

From the drawing boards of expert furniture designers, all the way through the selection of high quality materials used in these sets, every step in their production has been carefully controlled to assure the most tasteful appearance and top quality construction. You can be proud to locate any one of them in a place of dignity in your home.

## Hand Crafted Chassis

The less-costly method of constructing the vital nerve center of a television set would be in keeping with the high quality standards Airline has set for its 1961 line of consoles. Hand crafted chassis take longer to build but are easier to service and better performing for years of trouble-free enjoyment. There is no better way to build TVs.

## Automatic Gain Control

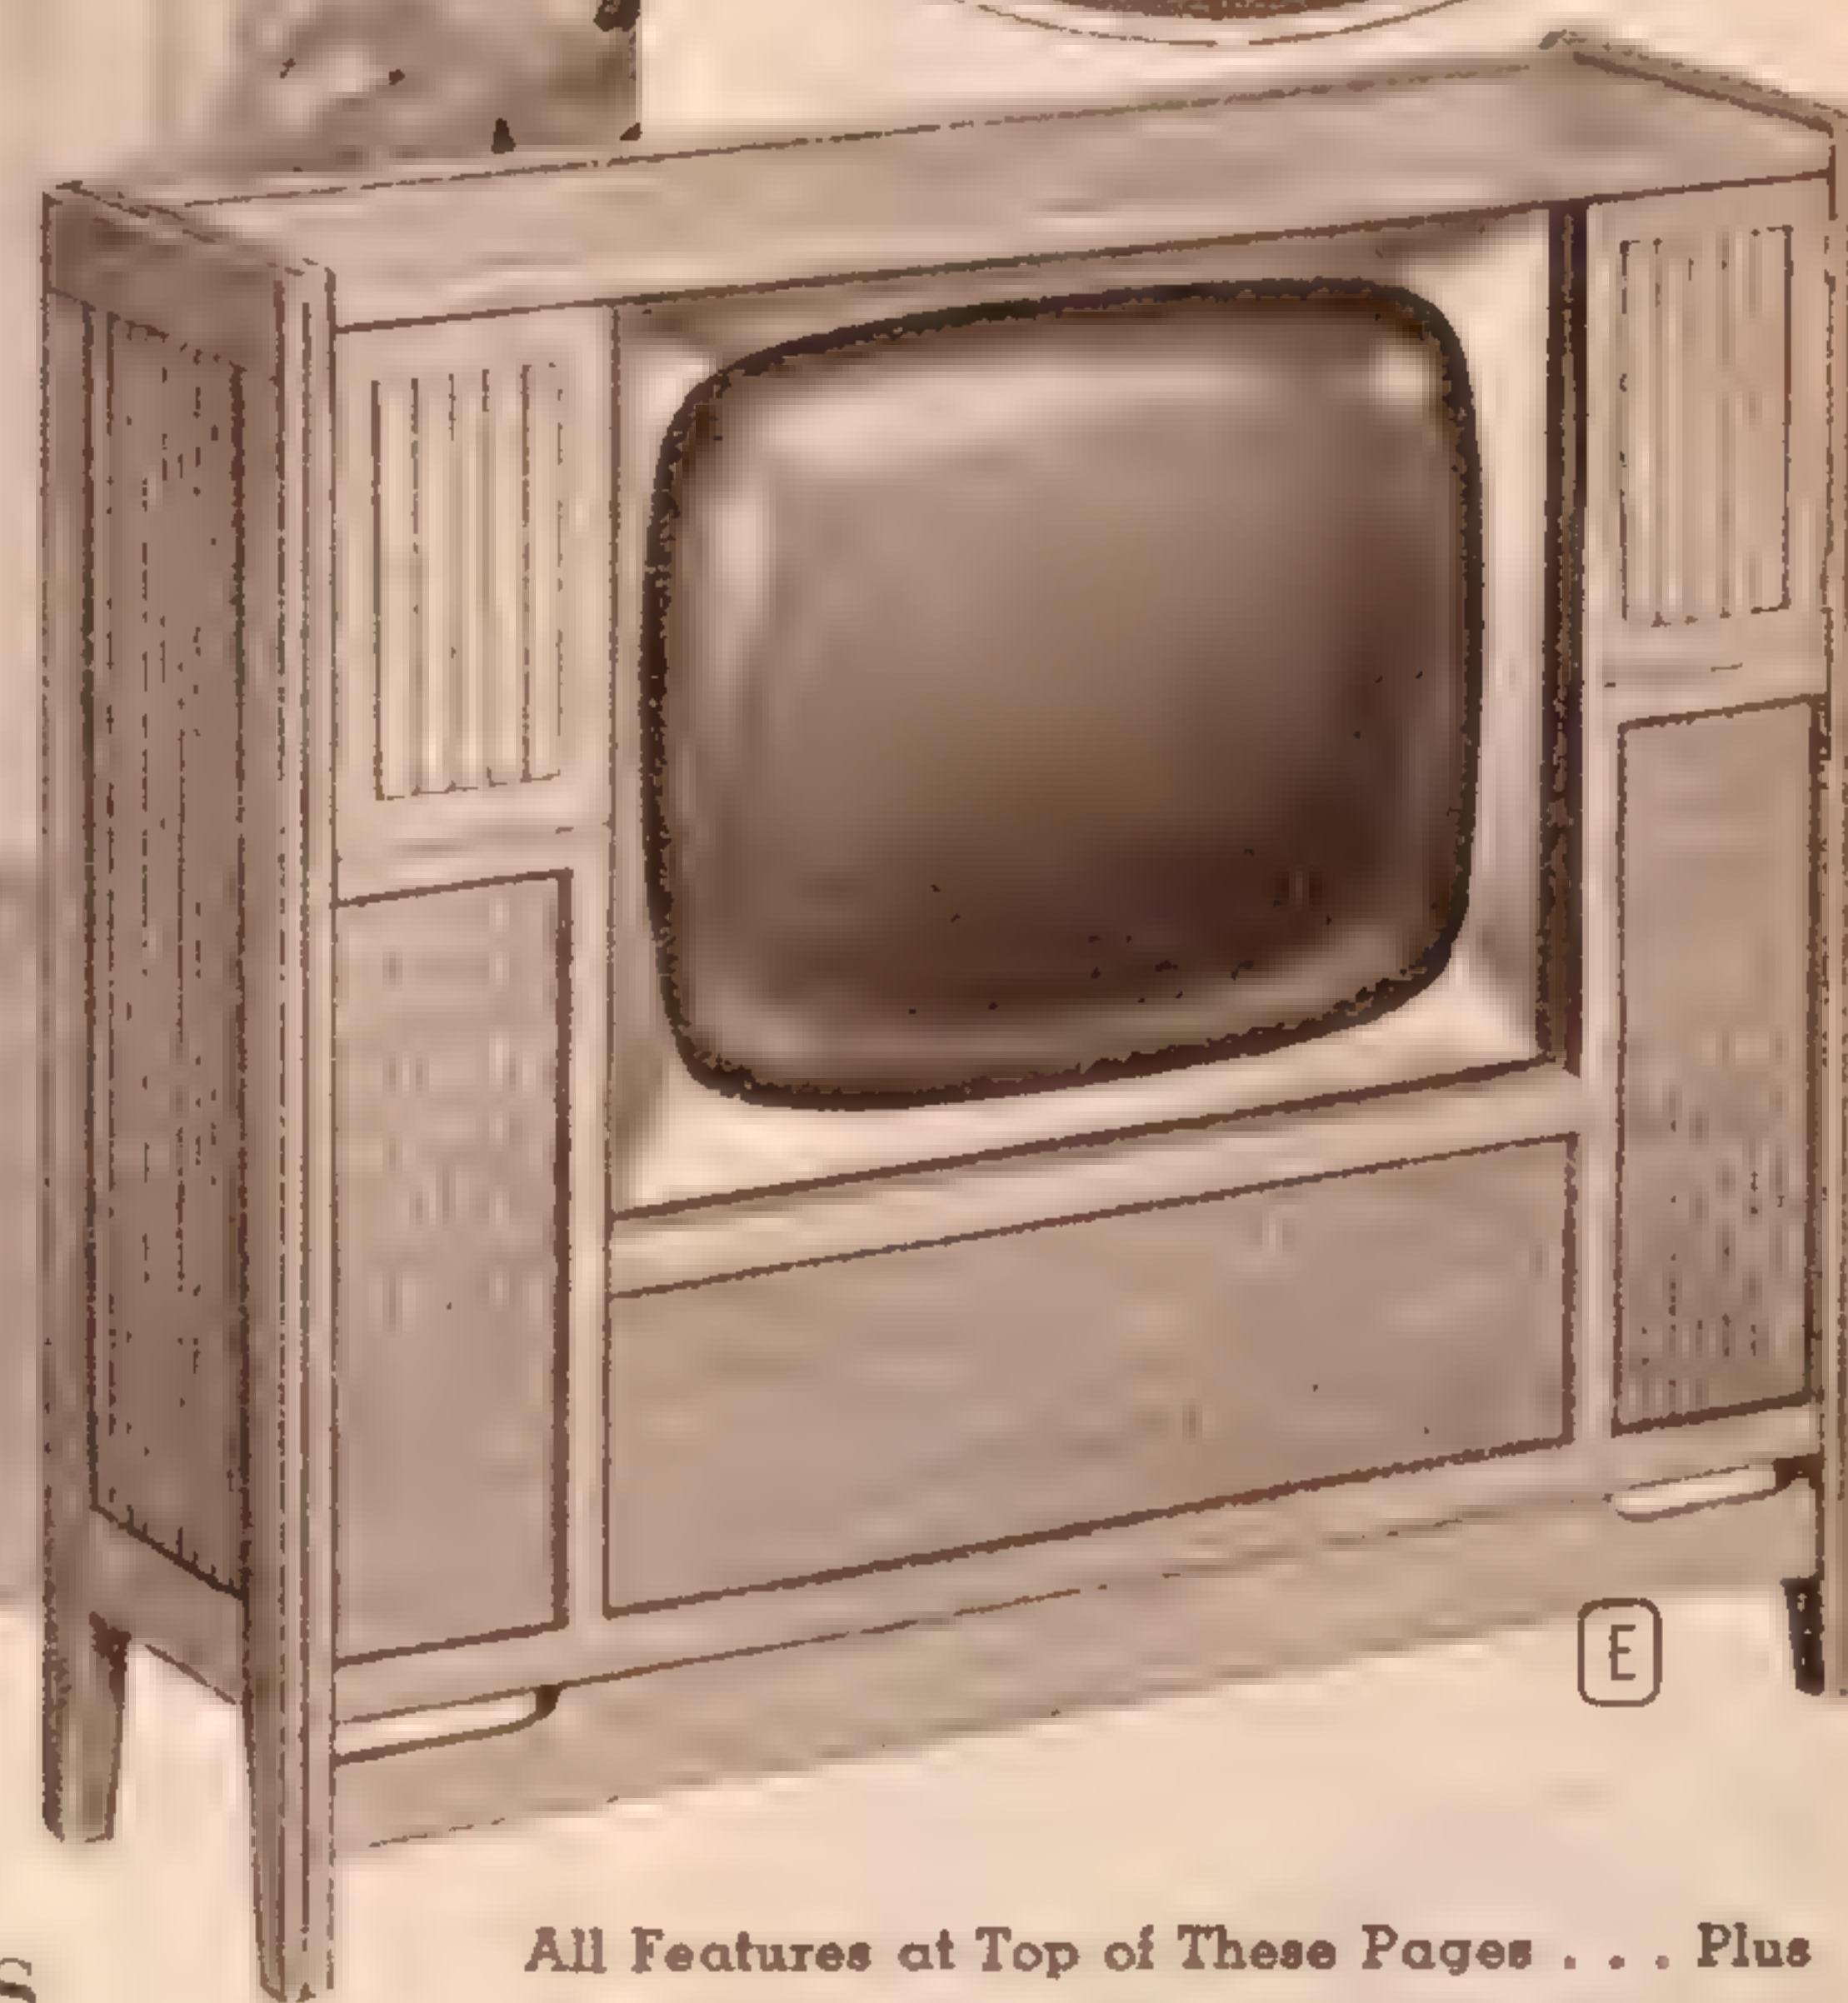

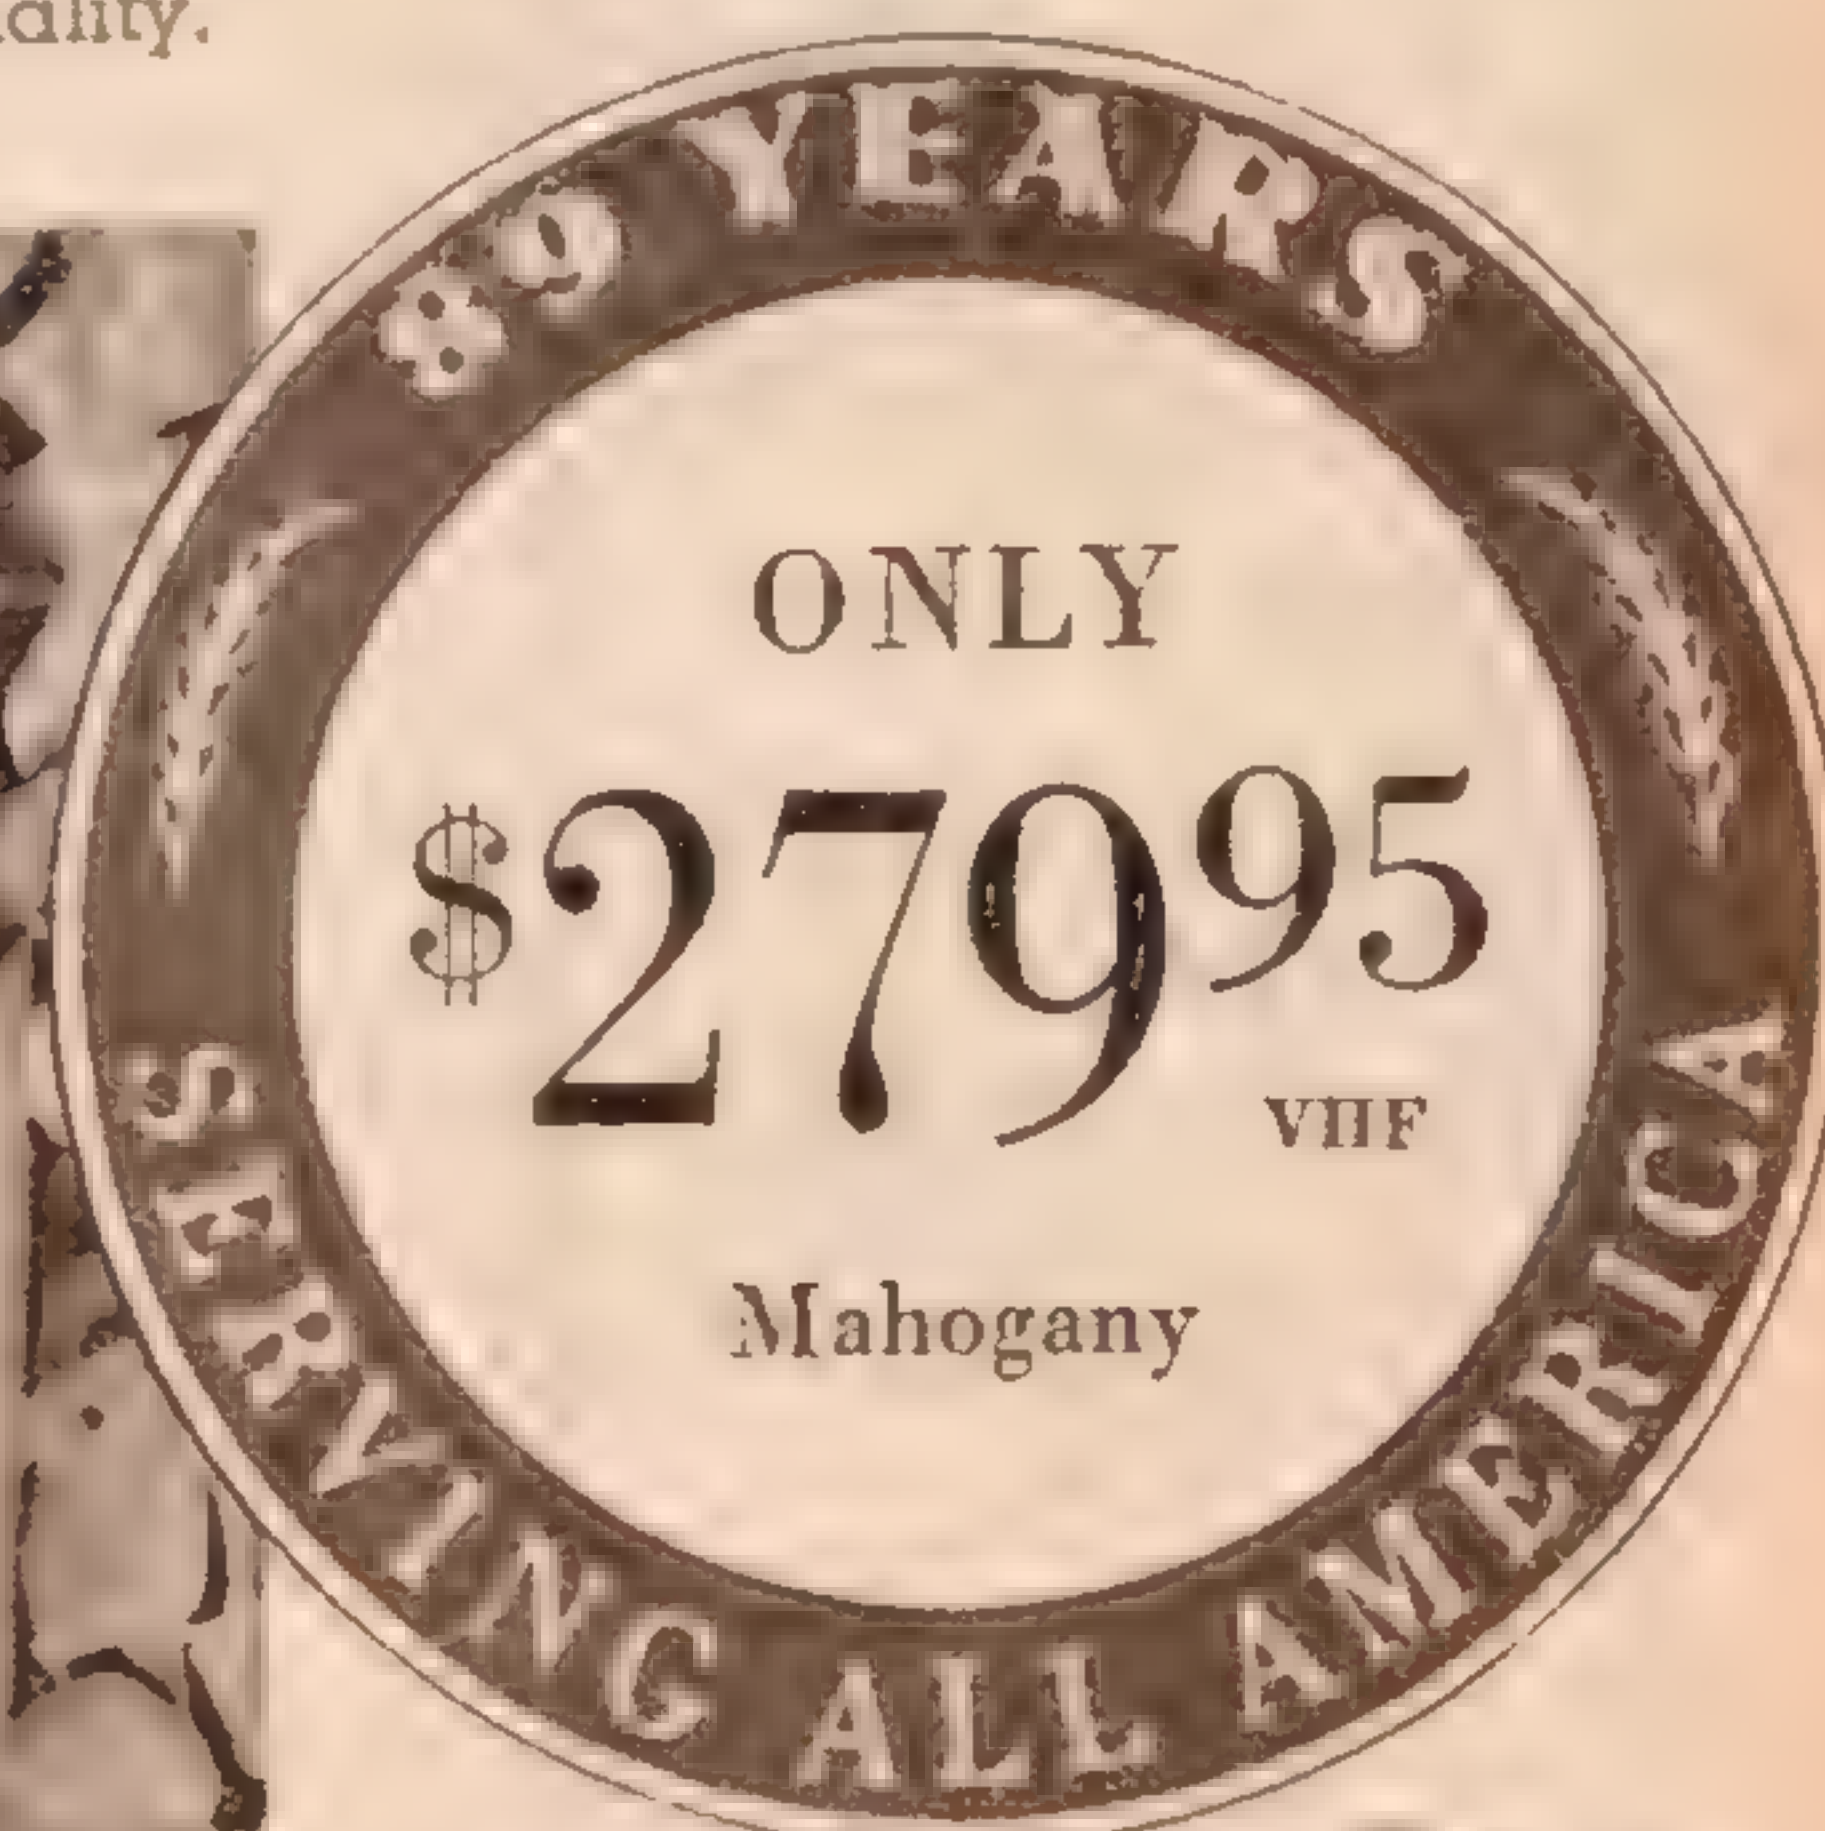

AGC and Range Control are features of vital importance to good reception. AGC assures a steady picture from every channel—no wobbling, fading or fluttering. Range Control pinpoints the signal from weak and strong channels and compensates for too little or too much power so you don't have to re-adjust every time you change channels.

## Quality Control

During every step of the production of these superb television sets, they are carefully inspected to assure that every component meets Airline's rigid standards of quality. *Just one such test lasts 4 hours.* After completion, they are inspected again in a final checkout. The close tolerances maintained in production assure you of uniformly high quality.

## Exclusively at Wards

The television consoles shown on these pages have been designed and built by some of the finest furniture designers and television engineers in America exclusively for Montgomery Ward. Each one has been designed to co-ordinate perfectly with a particular style of furnishing.

# Airline TV Antennas... GUARANTEE TOP RECEPTION

LOW

**YES, GUARANTEED TOP RECEPTION!** Choose an Airline antenna similar to those in use in your area. If it does not perform satisfactorily, return it for full refund including transportation.

**NOTE:** All VHF antennas on this page can be used simultaneously for television and FM radio reception with Coupler (13).

**Special Installation Requirements:** Wall and chimney mounts are not included in Airline antenna kits. If needed order separately below. Ground clamps sold on Page 1014.

**1 Airline High-Gain Most Sensitive VHF Antenna.** Two Sections, Antenna only. Best ever tested by Wards for fringe areas, wherever reception is difficult with ordinary television antennas.

For over-all gain, sensitivity and performance on all VHF channels 2 to 13, this antenna was given highest rating by Ward television engineers during field tests of many antennas with popular-brand TV sets.

Wards recommend this antenna for use within 50 miles from TV station. Highest quality. Easily assembled; complete instructions included. (Mast 7), lead-in (9) and accessories are not included—order separately below.) Ship promptly by Freight, Truck or Express.
